which was the same of the same and the same
Conductive electrode cream For routine electroneurodiagnostic testing and long term electroencephalographic monitoring
140g squeeze bottles
White or Pink
Water soluble non-staining cream
12
High conductivity Artifact-free tracings Bacteriostatic Non-staining to skin and clothing Contains no abrasives Lessens false readings. Will not irritate skin or stain clothing.
To achieve quality electrophysiologica recordings proper conductivity between skin and recording electrode and stimulation electrodes are crucial. Not electroneurophysiologic procedures can be performed without proper skir conductive connection. At recording sites conductive cream ensures quality recordings and at the stimulation sites ensures that lower electrical stimulation intensities and reduces the number of stimuli needed of optimal recordings.
All electro-neurophysiologic procedures are dependent on the use of this product
For safe use on all age groups
